

NORWOOD & CO.

MASONRY. EXCAVATING. CONTRACTING.

A Division of Norwood Masonry Inc.

Norwood & Co. is a division of Norwood Masonry Inc., a locally owned and operated company established in 1977 by Gordon C. Norwood. In the past decade our company has expanded to include a second generation of masons including owner, Adam Norwood. After almost 40 years in operation, Norwood & Co. continues to provide clients with exceptional service in the masonry, excavating, and general contracting business serving residential, commercial, and industrial properties across Eastern Ontario.

Over the years we have dealt with thousands of satisfied customers who continue to refer us to their family and friends. Why? We stand behind our work. Combined, our team has over two hundred years of experience and we are continually growing; frequent training and certification keeps us up-to-date on the latest building techniques. Moreover, we won't leave until the job is done. And you can rest assured that while we complete the project we will treat you, your property, and your neighbours with respect. We believe it's important to give back. As a sign of respect and commitment to the community in which we work and live, Norwood & amp; Co. supports local community events.

We are a local family and love our community and we want thank you all of you who have contributed to our growth and success over the years. We look forward to many more years ahead!
